Halaman users akan menunjukan seluruh data users yang ada di dalam jsonplaceholder, dan akan menunjukan informasi dalam column-column persis seperti yang ada pada screenshot.

Contact Popup Dialog

Ketika tombol contact di click, keluar popup seperti tampilan, yang memperlihatkan detail contact informasi dari contact user yang di click. Misalnya saya click contact pada Leanne, maka contact Leanne akan muncul. Informasi yang diminta untuk contact akan persis seperti yang ada pada screenshot.

Ketika popup dialog keluar, akan ada lapisan transparansi hitam (modal layer) yang menutupi background, sehingga user tidak bisa click apa pun, kecuali tombol red cross untuk close pop up dialognya.

Lalu user bisa kembali ke halaman user untuk melakukan kegiatan lainnya.

To-Do Section berada di sebelah kanan dan datanya akan ditunjukan saat kita click button To-Do yang ada pada setiap row di users.

To-Do merupakan list tugas-tugas yang harus dikerjakan oleh user tersebut. Ketika saya click To-Do dari seseorang, misalnya si Ervin Howell, maka aplikasi hanya akan menunjukan to-do list dari si Ervin Howell saja, bukan yang lain.

Saat saya click user lain, misalnya si Glenna Reichert, maka to-do list yang ada di section sebelah kanan akan berubah semua menjadi to-do dari si Glenna.

Perhatikan di setiap to-do task; untuk task atau tugas yang statusnya sudah complete, harus di checked warna hijau seperti contoh pada screenshot.

Posts Page

Post page adalah halaman lain yang akan keluar apabila kita click button Posts yang ada di halaman users di setiap row user. Post page akan menampilkan informasi postingan yang akan di post oleh user yang kita pilih.

Apabila saya click posts button dari si Ervin Howell, maka halaman akan berpindah ke halaman ini, dan halaman akan menampilkan seluruh posts data dari si Ervin Howell, bukan yang lain. (Perhatikan, nama user nya juga harus muncul pada judul halaman).

Button "Back to Users" akan membawa kalian kembali ke halaman users.
